### ThunderCap

#### Calming through Reduced Vision

- Formerly named CalmingCap
- Allows dog sufficient vision to easily navigate surroundings
- Works with any standard dog collar

#### HOW IT WORKS

The ThunderCap is a wonderful tool for easing your dog's anxiety in high-stress situations. The ThunderCap reduces visual stimuli and helps your dog to remain comfortable, overcome his fearfulness and increase his confidence. The single-panel sheet fabric window does not blind your dog, but simply filters his view. Try it for yourself – you'll see that while your vision is somewhat limited, you're still able to comfortably and assuredly make out shapes.

### ThunderSpray

#### Calming Pheromone Spray with Lavender and Chamomile

- Mimics a mother's natural pheromones and provides soothing fragrances
- Great for vet visits, crating, car travel, fear of thunder, separation anxiety and much more
- Use as an area spray or spray onto the ThunderShirt

#### HOW IT WORKS

ThunderSpray mimics a mother's natural pheromones to soothe and relax dogs and cats during anxiety ridden or stressful situations. This can be used with the ThunderShirt or alone as an area spray.

Spray directly on ThunderShirt for extended release.

100% SATISFACTION GUARANTEE

### ThunderTreat ThunderToy

- Stuffable chew toy and treat combination for calming dogs
- ThunderTreat is low calorie
- Great solution for unwanted destructive chewing
- Great for enrichment and anxieties such as storms, separation and travel

#### HOW THEY WORK

Designed to calm, the ThunderTreat and ThunderToy are the perfect toy/treat combination for calming, distraction and enrichment. The ThunderToy was specifically designed to be stuffed with the low calorie ThunderTreat, and together they can keep your dog calm and happily occupied for up to an hour.
